

HOW TO RETREIVE WIND SPEEDS (Specific address or PID)

Enter website: <https://www.scgov.net/>

A-Z

Maps (GIS)

Data Categories (County Services)

WindLoadCategory

On the right-side click on “Create Webmap”

The maps will show the wind speed dividing lines, which are color coded.

Red = Risk Category 1

Green = Risk Category 2

Blue = Risk Category 3 & 4

In the upper right, you can search the map by entering an address.

Click on the desired structure’s outline. There is an information box for the searched address with the ultimate wind speed by Risk Category
